# ALLIES AGREE WITH WILSON PEACE TERMS FOR HUN.

**LONDON, Oct. 29.**—The Versailles conference, according to the report current in London this afternoon, has agreed on the main points of the armistice terms, which will now be considered by the military commanders. Final peace terms, it is said, will be submitted to Germany simultaneously with the armistice terms.

## Huge American Shells Hit Conflans Railway

**O. P. EAST AROUSED BY WILSON'S PARTISANSHIP.**

**Let California Add Republican Tuesday to Her Representation in Congress," Hays's Reply.**

**NEW YORK, Oct. 28.**—Chairman Will H. Hays of the Republican National Committee has started something redder than the pants of a French ace. He has set the Republican party on fire. I have never seen such an immediate effect from one little giant's call to arms as was the response of the Republicans of the East to Chairman Hays's challenge to President Wilson. One blast upon his bugle horn was worth a million words.

A week ago the Republicans of New York had forgotten that there was to be an election November 5. Today they are chattering of little French aces. The war comes second as a topic. After musing from the tepid calm of California politics I am impressed, not by any tingling, by the heated burning condition of eastern Republicans.

President Wilson could not have foreseen the effect of his appeal to voters of the nation to support "me" and "my administration." It proved to be a firebrand. His grudging recognition of the loyalty of Republicans to the war, making adherence to the administration, not to the war, the great cause, the chemical test of merit, has stirred up Republican sentiment and put an end to Republican lethargy. There was a thrill in every line of the rejoinder issued by Chairman Hays of the Republican National Committee, and the results of the interchange of fire were three: 1. It awakened the general public to the fact that an election is at hand. 2. It inspired the political practices of the President by disclosing again the hideous nature of his partisanship. 3. It spent the afternoon at the Republican headquarters on this avenue, one of the busiest centers you ever saw with its myriads of militant typewriters, its ringing and counter-ringing of the President by disclosing again the hideous nature of his partisanship.

"We have speeded up and are going to gain our objectives," said Chairman Hays, in relation. "We are praising the enemy back on this avenue. Tell the Republicans of California that we expect them to take at least one seat in Congress as a reward for their loyalty." He then turned to President Wilson's address. "If they in any way fail to answer to President Wilson's address, we will not rest. I hope they will profit by the mistakes of 1912 and make good this time. The eyes of the country are upon them."

**ROOSEVELT RECRUITED.**  
Simultaneously with the waning political Wilsonian enthusiasm, the enthusiasm of Roosevelt. Formerly, I am pained to see it, but cannot close my eyes to it. Yes, Roosevelt has been recruited. Father Theodore gave Theodore his chance and he grabbed it by the tail before the war. There is no doubt here that Roosevelt will be an active and efficient candidate for the House in 1918. His stupendous meeting at the House last night was an advertisement for his name. The police had to use clubs to keep the mob back. Roosevelt was in the basement and the hall by way of a trap door.

Then I stood and listened to him for two hours. It was the most speech he ever made. He was full of humor and vastly enjoyed all the way along. His presentation of the fact that President Wilson protested against the election of pro-war Republicans had no word to say in the election of anti-war Republicans. He rubbed this in over and over.

**THE DAY'S NEWS SUMMED UP**

**Banks Emptied by Fleeing People. Two Vital Junctions Piave's East Bank Also Under Fire.**

**Everybody Who Can is Rushing Eastward from Menace of Allied Armies. Projectiles Weighing About Three-fourths of a Ton Rain Upon Enemy. Italians and French Capture Mountain Tops and the Plains in Italy.**

**LONDON, Oct. 29.**—(British Wireless Service.) Civilian departures from the lower Rhine-land and part of Westphalia, which were begun on a small scale when the first Allied bombs hit Cologne, have developed into a panic flight, according to the Hagen correspondent of the Daily Mail.

All the banks are being stormed by depositors who are withdrawing their savings in German bank notes of as high a value as are obtainable, the 100-mark note having an appreciable market value over lower currency. But even small notes, of one mark, are being taken eagerly. Not only are some of the banks at their wits end for legal currency, but the currency is being hoarded, especially Cologne and Düsseldorf, and all except local, and therefore, valueless, currency has disappeared. Everybody who can possibly afford it is trying to make his or her way eastward.

Even in Berlin financial panic has spread the people, and the ordinary paper currency of the Reich is being hoarded. The municipality has been compelled to issue emergency currency to the value of about 100,000 marks, valid until February 1 next, within the confines of Greater Berlin.

Traders may refuse to accept this currency, or at least decline to change the notes, except when compelled to take them in payment for goods. The big German banks have published appeals to "our fellow-citizens" not to hoard currency notes. But the rush on the banks has grown worse than ever.

The working population of Cologne, seeing the war factories closed down, big houses evacuated and east-bound trains crowded with well-to-do fugitives, are demanding immediate peace. Demonstrations have been held, and the police have been increasingly violent.

The manifesto, which has been issued by a section of the Social Democrats, declares that if the Emperor will not voluntarily abdicate, the working population of Cologne, seeing the war factories closed down, big houses evacuated and east-bound trains crowded with well-to-do fugitives, are demanding immediate peace. Demonstrations have been held, and the police have been increasingly violent.

**AUSTRIAN EMPEROR IS SEEKING QUICK PEACE.**  
**VIENNA (via Basel, Switzerland).** Oct. 28.—Austria-Hungary, through her new Foreign Minister, Count Andrássy, has sent a note to Secretary of State Lansing requesting the Secretary's intervention with President Wilson for an immediate armistice on all fronts and for the commencement of peace negotiations.

The note says: "Immediately after having taken direction of the Ministry of Foreign Affairs and after the dispatch of the official answer to your note of October 18, 1918, by which you were able to see that we accept all the points and principles laid down by President Wilson in his various declarations and are in complete accord with the efforts of President Wilson to prevent future wars and to create a league of nations, we have taken preparatory measures. In order that Austrians and Hungarians may be able, according to their own desire and without being in any interest of all those who live void from all disturbances, privations and sorrows of war."

"This is why I address you directly, Mr. Secretary of State, praying that you will have the goodness to intervene with the President of the United States. In order that the interest of humanity, as in the interest of all those who live void from all disturbances, privations and sorrows of war."

"The accession to power of Emperor King Charles has brought an end to the war. More than ever this is the desire of the sovereign people of all the Austro-Hungarian peoples, who acknowledge their destiny can only be accomplished through a local counter-attack, but were repulsed. An officer and four German privates were taken prisoner."

There was fierce fighting near Belleau Wood, which the Americans held. The American guns replied to the enemy batteries around Bois l'Eclair, Reville and Chaumont. The German shells shelled Bantheville and Cuneil.

Fires burned most of the day in the northwest of Verdun, Oct. 28. 1:10 p.m.—The artillery bombardment of the left bank of the Meuse reached a great intensity during the night. The fire was especially directed against the heights of Colfaco and the railroad yards also were damaged.

## FOCH APPROVES ARMISTICE PLAN.

**Versailles Council Considering Guarantees to be Demanded—Surrender Rhine Forts, All Ordnance, Submarines, Keil Canal, Terms Talked.**

**WASHINGTON, Oct. 29.**—Our allies have agreed to make peace with Germany on the lines mapped out by President Wilson, according to information emanating from a responsible administration source tonight.

Marshal Foch and his associated military advisers have pronounced an armistice with the Central Powers practicable, provided Allied interests be properly safeguarded.

The military advisers of the Allied nations are now formulating the terms of the proposed armistice and some of the conditions already have been submitted to President Wilson for approval.

Surrender of military power and guarantees for the faithful performance of contract sum up the terms on which Germany will be permitted a cessation of hostilities.

Whether Germany would accept terms tantamount to a surrender remains to be seen, but with Austria and Turkey seeking a separate peace with the Allies the impression is strengthened that the end of the war is not far distant.

Military officials here, however, are still predicting that it will require further fighting to force Germany into submission to Allied terms, unless these terms should be weakened.

The conditions so far formulated are not complete, and only those on which Great Britain, France and Italy are in accord have been cabled to President Wilson, according to the understanding here.

Additional terms are under consideration by the Supreme War Council, sitting at Versailles, in the deliberations of which Col. House is participating, and Col. House is submitting to the Allied premier the views on the terms already submitted and those under consideration.

The article on the evacuation of invaded territory by Germany as tentative.

## CABINET CONSIDERS VIENNA NOTE.

**WASHINGTON, Oct. 29.**—In the absence of any official announcement there was a somewhat widespread impression here tonight that Austria's renewed appeal to President Wilson for an immediate armistice and peace would be transmitted to the Allied governments before which Germany's request has been placed.

In some quarters, however, there was a disposition to accord different treatment to the Austrian plea, because of the complex problems arising from the new conditions that apparently have developed there since the President replied to Austria's original request.

The official text of the Austrian note was delivered to Secretary Lansing today by the Swedish Minister soon after the regular Tuesday meeting of the Cabinet, which it was understood the unofficial version as transmitted by the Associated Press from Basel, was given consideration.

If any definite conclusion was reached, the fact was not revealed, officials stating they could not indicate what disposition would be made of the note in advance of a careful study of the official version. The text received at the Swedish Legation was in French, and it has not yet been translated at the State Department. After a preliminary examination it was said there that it did not differ essentially from the unofficial as received from Switzerland. No indication was given as to when the translation of the note would be made public.

Those adhering to the opinion that different treatment should be accorded to the Austrian request than was given the plea of the German government pointed to cable dispatches today respecting the establishment of the independent state of Hungary; of the recognition by that state of the independence of Czechoslovak and Jugoslav provinces, and also of German-Austria as suggesting the introduction of complex factors into the problem of settling with the dual empire.

Latest photograph of Dr. Solf, German Foreign Minister, who is conducting negotiations with Allied nations to obtain an armistice as a means to discuss peace. His communications have been forwarded to Paris and London by President Wilson.

## HERE ARE ARMISTICE TERMS.

**WASHINGTON, Oct. 29.**—Incomplete and tentative armistice terms have been formulated by the military advisers of the Supreme War Council sitting at Versailles and cabled to President Wilson for his approval.

In brief the terms so far received are: 1. Withdrawal of Teutonic troops from invaded territory within a specified period to be fixed by the Allied commanders. 2. Surrender of all ordnance and ammunition for same. 3. Demobilization of the Teutonic armies except a limited number of troops for policing purposes. 4. Surrender of frontier fortresses, including Metz and Strasbourg.

5. Release of all Allied prisoners of war, German prisoners of war to be held until completion of restoration of devastated territories. 6. Surrender of all German submarines, Helgoland and Kiel Canal.

## MOMENTOUS DECISIONS AT BERLIN.

**PARIS, Oct. 29.**—(Havas.) Extremely important decisions were taken at the meeting of the Crown Council, held under the presidency of Emperor William, at Berlin Saturday, says a dispatch from Zurich to Le Journal. The greatest agitation prevails in the Reichstag, where groups of Deputies, the message adds, are sitting continuously.

Considerable nervousness, it is said, prevails in German military circles as a result of the decisions reached at the Crown Council. The German government, it is declared, is determined to resort to extreme measures.

**COPENHAGEN, Oct. 29.**—The German Federal Council has approved the bill amending the Imperial constitution in the form as adopted by the Reichstag, says a Berlin telegram.

The Reichstag on Saturday amended the constitution by placing the military authorities under the control of the civil government. The measure was adopted by a large majority. The retirement of General Ludendorff has been reported as having been due to the passage of the measure by the Reichstag.

# German Provisional Government Formed in Austria will Appeal to Wilson for Peace

## HUNGARY QUITS AUSTRIA. Independent Anti-Dynastic State Formed with Czechs and Slavonians.

[BY ATLANTIC CABLE AND A. P.]

PARIS, Oct. 29.—(Havas.) The Executive Committee of the German parties in Austria has formed a provisional government, according to a dispatch from Vienna, and has decided to send a separate note to President Wilson.

The Arbeiter Zeitung of Vienna declares that Germany and Austria-Hungary will capitulate without delay.

COPENHAGEN, Oct. 29.—Archduke Joseph has issued a proclamation stating that Emperor Charles has charged him with the task of securing the complete independence of Hungary, a dispatch from Budapest says.

The proclamation adds that peace will be signed at once, and Hungary will join a league of nations, her integrity and unity being the first aim.

An independent anti-dynastic state has been formed in Hungary under the leadership of Count Michael Karolyi, in agreement with the Czechs and South Slavonians, according to Vienna reports received by the Politikon.

In a speech at Budapest, Karolyi declared he had prepared his program to Emperor Charles, who refused to accept it. Karolyi thereupon put into effect his plan for an independent state.

BUDAPEST (via Basel, Switzerland), Oct. 29.—Count Michael Karolyi, president of the Hungarian independent party, entered into negotiations with Vienna with Prof. Lammash, the new Austrian Premier, but without result, according to the newspapers.

Count Karolyi returned to Budapest last night and said he had submitted his program to King Charles, who had not accepted it.

It is understood that Count Karolyi, the Austro-Hungarian Foreign Minister, raised objections to the appointment of Count Karolyi as Premier of Hungary, and that King Charles threatened to appoint Archduke Joseph to consult with the political leaders with the object of trying to bring about a solution of the political crisis.

PARIS (Switzerland), Sunday, Oct. 27.—Count Michael Karolyi and the Radical Socialist party, after a conference at Budapest, have decided upon the separate and complete autonomy of Hungary and have agreed on the following program:

Abolition of the present parliamentary system. The establishment of guarantees for a free political system. The recall of the Hungarian troops to their homes and termination of the war without hope of success for the interests of Hungary at the conclusion of peace.

The abandonment of the German alliance. The dissolution of the Hungarian lower house with subsequent elections by the direct secret ballot of both male and female voters.

Suppression of the censorship and the establishment of the freedom of speech, the press and public meetings. Recognition of the new states of Poland, Czechoslovakia, Rumania, South Slavia and German Austria.

Count Karolyi, Count Rathayani and the Radical Socialist party, after a conference at Budapest, have decided upon the separate and complete autonomy of Hungary and have agreed on the following program:

Abolition of the present parliamentary system. The establishment of guarantees for a free political system. The recall of the Hungarian troops to their homes and termination of the war without hope of success for the interests of Hungary at the conclusion of peace.

## FOCH APPROVES ARMISTICE PLAN

Versailles Council Fixing Guarantee Terms.

Must Surrender Rhine Forts, All Army Ordnance.

Submarines, Helgoland and Kiel Canal Wanted.

(Continued from First Page.)

tatively drawn provides that the armed forces of the Central Powers shall be withdrawn from Belgium, France, Serbia, Montenegro, Rumania and Russia within a specified time, the extent of which has not been definitely fixed.

German officials have said that it would take six months to evacuate Belgium and France, but Marshal Foch, however, is known to regard a fraction of this time sufficient for the withdrawal.

RETRAIT BEYOND RHINE. The military advisers propose further that Germany shall be required to withdraw all forces beyond the Rhine, leaving the territory between the river and the German frontier to the Allies.

The proportion of ten enemy machines destroyed for every British machine reported missing, it is pointed out, reveals the very striking superiority of airmanship of British pilots over that of the Austrians.

ITALIAN HEADQUARTERS ON THE PIAVE. Saturday, Oct. 26.—It is reported that Archduke Joseph Ferdinand has replaced Gen. Boroevic as the Austrian commander on the front along the Piave.

In the three days since the beginning of the Italian attack the Austrians have put up a strong resistance. It is believed, however, that the fighting spirit of the troops is maintained by the Austrian officers.

When surrounded, the enemy soldiers show little desire to continue the combat. The German and Austrians in the Austrian ranks are doing the best fighting.

PARIS, Sunday, Oct. 27.—King Nicholas of Montenegro has sent a declaration to the Jugo-Slavs, in which, after expressing his joy over President Wilson's reply to Austria and affirming the independence of the state of Jugo-Slavs.

"I declare solemnly that Montenegro must become a constituent part of the new state of Jugo-Slavs," the King advocated a confederation of Jugo-Slavs, in which each state should retain its rights, institutions and religion.

BERNE (Switzerland), Oct. 26, Monday.—The new Austrian government has abolished censorship of the press, a report from Berlin says.

## AUSTRIANS FALL BACK IN ITALY.

(Continued from First Page.)

government to arrange an armistice. The Austrian position is said to have stopped the delivery of mail some time ago.

Although a heavy cannonade and strong machine-gun fire, the Allied troops succeeded in effecting a crossing of the Piave. The British, Italian and French soldiers are in the best of spirits and eager to continue the advance.

The roads leading to the mountains of the Piave are crowded with heavy masses of troops, guns and other war material proceeding to the front.

The present battle began officially on October 19, but heavy fighting did not develop until October 24, the anniversary of Caporetto, and the beginning of the retreat to the Piave.

Thanks to fair weather the Piave has been left several miles behind in the region southeast of Montebelluna, and the river in the foreground is increasing steadily and in the best order, notwithstanding the constant shelling from the Austrian artillery.

Gangs of Austrian prisoners captured in the drive already are at work clearing graves for the burial of the dead.

ROME, Monday, Oct. 28.—The official statement issued at the War Office tonight reads:

The battle is in the course of full development. On the front of the Twelfth and Eighth armies, in spite of very lively opposition, we have extended our bridgehead, and the offensive of the Ornic torrent we gained advantages.

East of Grave di Papadopoli the enemy was attacked with extreme violence by the Fourteenth British Corps and by the Tenth Italian Corps and has yielded.

"Our troops have broken through the enemy's lines, liberated several villages and entered San Nicolao, and by the Tenth Italian Corps and has yielded.

"All audiences with the Emperor arranged to take place during his stay in the castle of Godollo have been canceled.

AMERICANS ON PIAVE READY TO ENTER FRY.

YANKS BEING HELD IN RESERVE ON ITALIAN FRONT FOR SMASH ON AUSTRIANS.

ATLANTIC CABLE AND A. P. ITALIAN HEADQUARTERS ON THE PIAVE, Monday, Oct. 28.—American soldiers are in reserve along the Piave fighting zone. The correspondent saw an American battalion going through its "setting up" exercises this morning near the river.

## FOCH APPROVES ARMISTICE PLAN

German officials have said that it would take six months to evacuate Belgium and France, but Marshal Foch, however, is known to regard a fraction of this time sufficient for the withdrawal.

RETRAIT BEYOND RHINE. The military advisers propose further that Germany shall be required to withdraw all forces beyond the Rhine, leaving the territory between the river and the German frontier to the Allies.

The proportion of ten enemy machines destroyed for every British machine reported missing, it is pointed out, reveals the very striking superiority of airmanship of British pilots over that of the Austrians.

ITALIAN HEADQUARTERS ON THE PIAVE. Saturday, Oct. 26.—It is reported that Archduke Joseph Ferdinand has replaced Gen. Boroevic as the Austrian commander on the front along the Piave.

In the three days since the beginning of the Italian attack the Austrians have put up a strong resistance. It is believed, however, that the fighting spirit of the troops is maintained by the Austrian officers.

When surrounded, the enemy soldiers show little desire to continue the combat. The German and Austrians in the Austrian ranks are doing the best fighting.

PARIS, Sunday, Oct. 27.—King Nicholas of Montenegro has sent a declaration to the Jugo-Slavs, in which, after expressing his joy over President Wilson's reply to Austria and affirming the independence of the state of Jugo-Slavs.

"I declare solemnly that Montenegro must become a constituent part of the new state of Jugo-Slavs," the King advocated a confederation of Jugo-Slavs, in which each state should retain its rights, institutions and religion.

BERNE (Switzerland), Oct. 26, Monday.—The new Austrian government has abolished censorship of the press, a report from Berlin says.

## AUSTRIANS FALL BACK IN ITALY.

(Continued from First Page.)

government to arrange an armistice. The Austrian position is said to have stopped the delivery of mail some time ago.

Although a heavy cannonade and strong machine-gun fire, the Allied troops succeeded in effecting a crossing of the Piave. The British, Italian and French soldiers are in the best of spirits and eager to continue the advance.

The roads leading to the mountains of the Piave are crowded with heavy masses of troops, guns and other war material proceeding to the front.

The present battle began officially on October 19, but heavy fighting did not develop until October 24, the anniversary of Caporetto, and the beginning of the retreat to the Piave.

Thanks to fair weather the Piave has been left several miles behind in the region southeast of Montebelluna, and the river in the foreground is increasing steadily and in the best order, notwithstanding the constant shelling from the Austrian artillery.

Gangs of Austrian prisoners captured in the drive already are at work clearing graves for the burial of the dead.

ROME, Monday, Oct. 28.—The official statement issued at the War Office tonight reads:

The battle is in the course of full development. On the front of the Twelfth and Eighth armies, in spite of very lively opposition, we have extended our bridgehead, and the offensive of the Ornic torrent we gained advantages.

East of Grave di Papadopoli the enemy was attacked with extreme violence by the Fourteenth British Corps and by the Tenth Italian Corps and has yielded.

"Our troops have broken through the enemy's lines, liberated several villages and entered San Nicolao, and by the Tenth Italian Corps and has yielded.

"All audiences with the Emperor arranged to take place during his stay in the castle of Godollo have been canceled.

AMERICANS ON PIAVE READY TO ENTER FRY.

YANKS BEING HELD IN RESERVE ON ITALIAN FRONT FOR SMASH ON AUSTRIANS.

ATLANTIC CABLE AND A. P. ITALIAN HEADQUARTERS ON THE PIAVE, Monday, Oct. 28.—American soldiers are in reserve along the Piave fighting zone. The correspondent saw an American battalion going through its "setting up" exercises this morning near the river.

Mr. Younger Young Man

When circumstances elicit you to do a man's work you want to look capable of doing it. You want that little air of maturity that inspires confidence.

You can end grippe and break

are no indications that the Germans are withdrawing.

The Allies have consolidated their positions in the Grandpre sector, firmly establishing themselves on the southern edges of Bourgoigne and the northern edges of the Bois de la Joyeuse Farm in No Man's Land.

The artillery fire on the Verdun front was heavy today, and there was much machine fire as well west of the Meuse, especially north of St. Juvin.

A severe cold either head, chest, body or limbs, by taking a dose of "Pape's Cold Compound" every two hours will drive the cold out.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headaches, cures colds, coughs, sore throats, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffling. Ease your throat.

WASHINGTON, Dec. 12.—Continued aviation activities in front of the First American army in spite of unfavorable weather was reported by the War Department today and communique for Monday. Three enemy airplanes and an observation balloon were shot down, and all the American machine guns returned. Heavy artillery fire marked the day on both sides of the Meuse. In the Woerwede

**SOCIALIST CANDIDATE  
LITERATURE SEDITHOUS**

[BY A. F. NIGHT WRITER.]

CHICAGO, Oct. 29.—Federal Judge K. M. Landis today denied to William Broes Lloyd, Socialist candidate for the United States Senate, the right to publish his literature.

The court held that the reading of the matter in the various folders and pamphlets was of such a nature as to have a tendency to discourage enlistment and create dissension among United States soldiers by causing them to believe that this is a capital offense.

An appeal will be taken.

**OUCH! PAIN! RUB  
OUT RHEUMATISM**

*Stop suffering! Relief comes  
the moment you apply old  
"St. Jacob's Liniment"*

---

**AT HOME**

You Can Remove Them In Your Own Home Without Pain or Danger.

Many people knowing it is both painful and dangerous to cut a corn or callus continue to suffer from them not knowing how easy it is to get rid of them.

You can remove them in the privacy of your own home without pain

Rheumatism is "pain only". Not one case in fifty requires internal treatment. Stop drugging! Rub the corn right away! Apply soothing, penetrating "St. Jacobs Liniment" directly upon the tender spot, and relief comes instantly. "St. Jacobs Liniment" is a harmless rheumatism liniment which never disappoints and cannot ruin the skin.

Get a bottle of Eucalypti Compound, and rub it on the corn, and paint the corn with it. In a few days the corn will come off without any pain, and no sore will be left. Rub your work.

A bottle of Cactus Corn Compound costs only a few cents and is enough to take off dozens of corns. Full directions come with each bottle. Any doctor will tell you your money if you are not satisfied.

**FOR OUTRAGE**

under up, so, complaining,  
a small trial bottle of "St. Ja-  
cobe's Liniment" at any drug store,  
and in just a moment you'll be free  
from rheumatic pain, soreness and  
stiffness. Don't suffer! Suffer again!  
Get "St. Jacobs' Liniment" and  
it's a good for sciatica, neuralgia, lumbago,  
backache, sprains and swellings.

## RUSH ENLARGED WAR SCHEDULE.

Shipping Board Hurries Delivery of Vessels.

Precedence Given Ships of 10,000 Tons and Over.

To Divert Materials for Finishing Freighters.

WASHINGTON, Oct. 29.—The Navy Department and the War Industries Board are to co-operate with the Shipping Board in getting into commission newly-launched vessels needed to take care of the War Department's enlarged military program.

These ships have been held up for lack of boilers and other fittings. Chairman Hurley announced today that the War Industries Board had agreed to divert immediately materials from other uses to the manufacture of the boilers and fittings, while the Navy Department will supply as much of such equipment as is possible.

Mr. Hurley also said that the fittings manufactured for smaller vessels will be employed for the larger craft wherever feasible and the commissioning of smaller vessels may be delayed temporarily.

The need at present, Mr. Hurley said, is for vessels of 10,000 tons and over. Construction of smaller vessels will proceed, he said, but not at the expense of the large freighters. Through no radical change will be made in the building programme of the Emergency Fleet Corporation at the present time, it was intimated that in the future the majority of contracts will be for the larger type of ships.

## DESTITUTION, DEATH MENACES HOLY LAND.

RED CROSS COMMISSIONER APPEALS FOR HELP TO SAVE SICK AND HUNGRY.

WASHINGTON, Oct. 29.—Relief work on a far greater scale than now is being administered by the American Red Cross among the civilian population of the Holy Land is immediately necessary if thousands of men, women and children are to be saved, said a cablegram received at Red Cross headquarters today from Dr. John H. Finley, Red Cross Commissioner for Palestine.

One third of the population of Lebanon has died of starvation and disease due to lack of nourishment, many villages are depopulated and in ruins and thousands of persons are in dire need as the result of epidemics, prohibitive prices of food and inability to get work, Dr. Finley said.

Conditions in many of the hospitals are deplorable because of the shortage of physicians. More than 10,000 sick civilians have been cared for by the Red Cross in a single month.

There are 10,000 Armenian refugees in and about Damascus and 3000 more in the Hauran district, the cablegram stated. Red Cross workers have been doing everything to relieve the distress, but added that greatly increased help must come at once.

His recommendations that the American Red Cross send two additional hospital units to the Holy Land as soon as possible has been approved by Gen. Allenby, at whose request the British War Office has taken the matter up with the Red Cross.

Dr. Finley, at the time of sending his message, has just completed a tour of Palestine and lower Syria, passing through Nazareth, Tiberias, Tyre, Hidon, Haifa and Beirut.

"America should be the first to help in rehabilitation of the Holy Land which Great Britain and her allies have redeemed," said he. "The first medium of help should be the American Red Cross, which makes no distinction of race or faith."

Under the trusteeship of those who recovered this sacred land, which is the cradle of three great religions, the civility of the world is given an opportunity for illustrating the development of its highest ideals for humanity."

## LISBON NAMES STREET IN HONOR OF WILSON.

LISBON (Portugal), Oct. 29.—In recognition of his services to the Allied cause, and as a mark of respect and honor, the municipal government of Lisbon has voted unanimously to name one of the city's most prominent highways after President Wilson.

The street, a wide and residential avenue, has been called "Avenida da Cortes," but now will be known as "Avenida Presidente Wilson." It extends from the river Tagus to the House of Parliament, and is one of the city's chief arteries.

## WILSON WOULD DEFEAT NORRIS, A SUPPORTER.

[BY A. P. DAY WIRE.] OMAHA, Oct. 29.—Indorsement of former Gov. John H. Morehead of Falls City, Democratic candidate opposing United States Senator Norris (Rep.) for election to the United States Senate has been given by President Wilson.

In a telegram to Mayor Smith, who asked the President for a statement on the Senatorial situation in Nebraska, President Wilson said of Mr. Morehead:

"We need men with just his steadfast loyalty to the cause which now stands in need of unfaltering support."

## FIGHTS SIX-CENT FARE WITH JITNEYS GALORE.

[BY A. P. DAY WIRE.] SACRAMENTO, Oct. 29.—Virtually unrestricted operation of jitney busses in Sacramento was authorized today in an ordinance passed by the City Commission.

The action followed a threat of D. W. Carmichael, president of the commission, to restore the jitneys if the Pacific Gas and Electric Company, operating the local street car lines, did not withdraw its application pending before the State Railroad Commission for a 6-cent fare.

## FRED SANDERS GAINS 24 POUNDS

San Francisco Man Suffered Thirty Years.

Troubles Cost Him Hundreds of Dollars.

Like Different Man After Taking Tanlac.

"When I began taking Tanlac I only weighed one hundred and thirty-six pounds," said Fred W. Sanders, while in the Owl Drug Store at 210 Market St., San Francisco, recently, "and I now tip the beam at one hundred and sixty, which gives me an actual gain of twenty-four pounds in two months' time."

Mr. Sanders is a boiler-maker by trade, which occupation he states he gave up on account of ill health. He is now employed by the Glidden Varnish Company and lives at 702 Vallejo Street. He has been a resident of San Francisco for forty years.

In describing his trouble, which caused him so much suffering and loss of weight, Mr. Sanders said:

"I have suffered with my stomach thirty years or more. In fact, almost as far back as I can remember I have suffered from indigestion and constipation and these troubles have had one down and out many a time, especially during the past fifteen years. My stomach was so upset that nothing agreed with me and at times I couldn't even retain a single meal."

I was bloated nearly all the time by the gas which formed after my meals and I simply died of the pain caused by the gas. I have tried about every diet a person could be put on. I could eat no fruits or meats and the very sight of eggs would upset my stomach. I was laid up for six months at this time and spent over seven hundred dollars for treatment and medicines before I could get to work again. Since then I reckon I have spent twice that much more without getting any more than a little passing relief. I finally had to give up my trade as boiler-maker because the constant pounding and jar affected me so I was afraid of another breakdown. I got so I couldn't sleep at night and fell off until I weighed only one hundred and thirty-six pounds."

"Being Tanlac advertised in the papers, and as it was a new one on me I decided to try it. Now, just let me tell you, it has done me more good than all the other medicines I have taken in the past ten years put together. And eat; why, I have the best appetite I have had in years and my gain in weight shows how well my food agrees with me. My food all seems to digest perfectly and I never feel an ache or a pain. I sleep like a log at night and get up in the morning feeling rested and ready for a big day's work. Tanlac certainly is some medicine and you may just count on me as one of the biggest boosters on the coast."

Tanlac is sold in Los Angeles, Pasadena and San Diego by the Owl Drug Co., under the personal direction of a special Tanlac representative, of advertisement.

## WEALTHY BROKER FOUND DEAD.

**Winning Man and Bond Buyer Lured to Vacant House by Woman and is There Clubbed to Death from Behind and Robbed—No Clue Left.**

Reuben M. Fogel, wealthy bond buyer and mining man, was murdered last night in an upper room of the vacant house at No. 429 West Twenty-seventh street. The body was found with a heavy, blunt instrument.

Mr. Fogel, who lived at No. 1247 Fifth street, Santa Monica, had offices with E. P. Woods in the Security building, received a telephone message at 2:30 o'clock yesterday afternoon from a woman who said she was aged and an invalid. She said she had a \$500 Liberty bond which she must sell and that she would take \$490. As Mr. Fogel made a business of buying bonds, he consulted with Mr. Woods, secured \$490 in cash from the bank and went to the West Twenty-seventh street address given by the woman.

At Twenty-seventh street and Grand avenue Mr. Fogel asked the boys, James Babbitt, No. 404 West Adams street, Angel and N. N. Yeaza, No. 340 West Adams street, to direct him to the house of "Mrs. Robinson of No. 429 West Twenty-seventh street." The boys answered that they didn't know of anyone by that name in the neighborhood, but that the house would be five doors up the street. That was the last seen of the aged man, except by the murderers.

According to the crime, as reconstructed by Detective Captain Home and Detective Plintzmann, Hickok and Chas. the murderers entered the house, which is a large, twelve-room structure, furnished and for sale by cutting the rear screen. When Mr. Fogel called they admitted him by the front door, took him into the library and seated him in a Morris chair. Then one of the men stepped behind him and struck him on the head seven times with something similar to an iron crowbar, causing six deep fractures of the skull. The blow caused instant death.

As heavy blows struck that the aged man's brains were literally knocked out and scattered over curtains and blinds of three windows, near which he was seated. Then the murderers searched him, taking from him the envelope in which he had placed the \$490, and left the building by the front entrance, using the back door.

MURDERERS IN SMALL, BLACK CAR. Neighbors say that a small black machine, in which were two men, was seen to leave the front of the house about 4 o'clock yesterday afternoon.

At 7:30 o'clock yesterday evening W. T. Waters of the Chester Place patrol found the back door of the house open, and the screen cut. He entered, searched the house and found the body of Mr. Fogel.

The Fogel murder presents features similar to the famous P. R. Mills case, in which Mr. Mills, a rental and real estate man, was lured to a house on West Adams street to purchase \$4000 worth of furniture. When Mr. Mills arrived at the house he also was clubbed to death and robbed. His murderers have never been caught.

According to Mr. Woods, Mr. Fogel and he visited a spiritualist medium two weeks ago and the woman told the dead man that the back screen of a house would be cut, he would lose some money and his life would be in great danger. Mr. Fogel left his office and hurried to his home in Santa Monica, thinking that burglars had entered his house.

Mr. Fogel was a heavy stockholder in the Inspiration copper mine at Miami, Ariz., and in two Colorado mines. He was 64 years of age and had resided in Santa Monica for over twenty-five years. He traveled back and forth to Los Angeles daily, having offices as a broker and real estate dealer in this city. He was much interested in finance, and three years ago ran for the office of Commissioner of Finance at Santa Monica against Sam Brown, but was defeated. He owned his fine home in Santa Monica.

He leaves a widow, Ethel; two sons and a daughter. The two sons and the daughter's husband are in the service. The oldest son, Lieut. Moe Fogel, was a law partner of former Judge George H. Hutton. The firm was known as Hutton, Fogel & Coffin. Moe Fogel graduated during the summer at the officers' training camp at Camp Fremont and was commissioned a second lieutenant. Last week he notified his mother that he was going to go East and she went north to see him.

The second son, Leo Fogel, 18 years old, recently enlisted, but his family does not know in what regiment or where he is, but supposes he is at Camp Lewis.

The daughter, Marguerite, was married a few months ago to Lieut. Herbert Richmond, who is now in France. Her home is in El Centro. Mrs. Fogel, when notified of the murder, hurried from Santa Monica to this city. She is a law partner of the late Judge George H. Hutton. The dead man was at the J. D. Faria parlors.

At a late hour last night Detective Captain Home announced that absolutely no trace nor clue was left by the murderers.

NOT HAPPY MOVE. Furniture Gets to Court Instead of Downey as Result of Mix-up.

Harry Parkins' mix-up with A. H. Mitchell, a truckman, was responsible for the latter being in Justice Hinchshaw's court yesterday for arraignment on a charge of embezzlement from the Downey road.

The case was continued until Friday for further evidence.

Mr. Parkins says he employed the truckman to move furniture from Wilsonia to a house on Downey road at a price of \$20 a ton. Mr. Mitchell demanded \$25.50 when the van reached Downey road. They compromised on \$20 for the work. Then Mr. Parkins discovered that a large mirror had been broken and demanded payment for the damage. He says that the truckman threw the mirror on the road and drove off with the furniture. Later he received word that it was in storage.

The warehouse receipt was placed with the cashier of the Antelope Valley Bank at Palmdale for collection.

LIVINGSTONS LOSE IN NORTH. Application for Writ of Habeas Corpus Denied by the Circuit Court.

An application made in San Francisco yesterday by Attorney Earl Rogers for a writ of habeas corpus for Benjamin and Robert Livingston, draft evaders from this city recently brought back from Venezuela, whether they had fled, was denied by Judge Erskine M. Ross of the United States Circuit Court of Appeals.

Judge Ross held that the lack of jurisdiction and that the petition would have to be filed in the Federal District Court in Los Angeles.

The two Livingstons are at present at Fort MacArthur, having been turned over to the army authorities by their local draft board, which held them to be deserters.

EPWORTH LEADER DIES, WIFE ILL WITH "FLU."

Lawson Reed, a railway mail clerk residing at No. 1360 West Twenty-ninth street, died yesterday afternoon from influenza, complicated with pneumonia. He leaves a widow, Lillian Baker Reed, ill with influenza, contracted while nursing him.

Mr. Reed was one of the most prominent young churchmen of the Methodist of this city and was until recently district president of the Epworth League. Not long ago he had an opportunity to go to France as a mail clerk. He volunteered and was sent there when the order was withdrawn and he was sent home.

He was born near Pittsburgh, Pa., 18 years ago and had resided in Los Angeles ten years. Funeral arrangements will be announced tomorrow.

Reuben M. Fogel.

## SHOES SOON TO BE REGULATED.

War Industries Board's Rules to be Effective Friday.

However, Price Control Won't Come Until Next Year.

High Heels and "Pull Straps" Hit by Government.

Local retail shoe dealers yesterday received copies of the regulations of the War Industries Board affecting the manufacture and sale of shoes for men, women and children. However, retailers call attention to the fact that so far as the shoe purchaser is concerned the regulations will not begin to be felt until after June 1, 1919, the government having given dealers until that time to market their present stock. Unless the regulations are changed, local dealers interpreted them to mean that all shoes made on or after June 1, 1919, must be sold thereafter at government prices, that is, not to exceed \$12 a pair for men's and women's high-cut shoes, and not more than \$11 a pair for low-cut shoes.

The regulations, which go into effect Friday, affect the cutting of leather for shoes to be delivered to the retailer next spring, and detailed regulations are made which include the elimination of pull straps on men's lace shoes; stops the manufacture of window samples, two-tone color, black and white, and women's satin boots; limits the height of the heels of women's shoes to two and one-eighth inches; stops manufacture of patent leather boots for women, and limits colors to black, brown, tan and white; stops manufacture of men's and ladies' button shoes, except full dress shoes.

The retail prices of government-regulated shoes when they are put on the market next spring are grouped into three classes. Class C, service and semi-dress shoes ranging in retail price from \$12 to \$15.50; class B, stylish and serviceable shoes of the best type for business or dress, and ranging in price from \$10 to \$12.50; class A, the highest grade of shoes, from \$12 to not exceeding \$15.

Which go into effect next Friday, and regulate all shoes cut on and after that date for the duration of the war, the maximum height of women's shoes is not to exceed eight inches. Shoes made under the plan will be stamped on the lining of the shoe with the manufacturer's serial number and the class of the shoe.

The purchaser will know whether it is a class A, B or C shoe, and thus know the price. Over and over again the shoe purchaser will be reminded of the fact that shoes are provided for in class C.

The War Industries Board requires that manufacturers, wholesalers and retailers, just as the Food Administration requires that food dealers, must display the War Industries Board shoe label in the window of the shoe store.

The shoe label is a small card, which the dealer is to place in the window of the shoe store. It is a card which the dealer is to place in the window of the shoe store.

KEEP DEATH FROM WIFE. Woman Soon to Become Mother is Not Told of Soldier-Husband's Fatal Illness in France.

Word that Maj. Harold D. McLachlan of the Marine Corps is dead of epidemic meningitis, which he contracted in France, was kept from his 30-year-old widow, who is shortly to become a mother. She is being taken care of at a Pasadena hospital, and her physician declares that the news might be fatal.

McLachlan was formerly Miss Dorothy Chapin of Boston, and she married Maj. (then Capt.) McLachlan, a minister, brother of James McLachlan, an attorney of this city. Another son is Col. Donald McLachlan, a West Point graduate.

McLachlan was formerly a member of the Marine Corps and was in France when he contracted the disease. He was in France when he contracted the disease.

## Warning of Death Sent to Another.

Woman in Llorens Tragedy Warned that She is Next Prey of Vendetta.

Tragic end of Joaquin Llorens, Frenchman and former civil secretary of the Mexican government at Vera Cruz, bids fair to have a sequel equally grim, according to Mrs. Guadalupe Veneuela, who notified the police yesterday that she had received the same death notice that preceded Llorens' taking-off.

It was outside Mrs. Veneuela's home at No. 338 North Indiana street, Monday evening, that Llorens ended his life by taking strychnine in the presence of six of his self-appointed executioners. Llorens had been notified by them that the vendetta expired Monday night and took the poison rather than be killed by them.

From what the police have been able to learn of the singular affair, the vendetta appears to have originated with the marriage of Mrs. Veneuela. She says she was visited by Llorens in the marriage and within two months of the nuptials had left her husband, Edward, a dealer in musical instruments, and caused his arrest on a serious charge. In doing this she was aided and abetted by Llorens, a man of considerable influence in Mexico, especially in a political way.

He came here recently from Vera Cruz by way of El Paso. Veneuela on his part called the assistance of a group of friends, loosely banded together in a sort of political society, and warned Llorens and Mrs. Veneuela that the charge against the instrument dealer must not be pressed. However, they paid no attention. Llorens was set for yesterday at Santa Ana.

A little later Llorens was notified that he would be killed at the expiration of ten days, the mark of a large and bloody hand being affixed to the lintel of his door at No. 444 North Sloat street, by way of emphasis.

A complication entered with the sudden death last Friday of Veneuela, a victim of strychnine poisoning. The self-constituted avengers held a conference, it appears, and decided that Veneuela had escaped trial, that the vendetta should go ahead according to schedule.

The woman is inclined to be fatalistic about it. "They have said they will kill me, and I suppose they will," she said. "I don't know any more of them and they stop at nothing."

Three houses were destroyed and a fourth one damaged by a fire which started from an overheated stove at No. 328 Carrillo street yesterday.

Before the fire-fighting apparatus could get to the scene the house at No. 324 Carrillo street, owned and occupied by Ethel Weyer, and the house at No. 1449 Wallace avenue, owned by Florence Roark and occupied by Mrs. E. Gordon, were enveloped in flames. The three buildings burned to the ground, and only a few of the personal belongings in them were saved. The total damage was estimated at \$6000.

The house where the fire originated was owned and occupied by William Oler, who was in the yard at the time the sparks from the fire ignited the roof of the house at No. 1449 Wallace avenue, owned by A. E. Yorkes. It caused a nominal damage.

The work of the firemen was hampered by the fact that the hose had to be stretched for nearly three blocks to get to a fire plug.

'FLU IS UNDER CONTROL. Figures compiled yesterday at the office of the city health department indicate that influenza here is under control, and that it may be expected to subside soon. There were 159 cases reported yesterday, of which some were over-Sunday cases which had not previously been reported. Yesterday's report gives twenty deaths from influenza, twenty-nine from pneumonia and four from bronchial pneumonia.

A comparison of cases for the past ten days indicates that there have been about the same number of cases per day during the past week and that the disease is not making any gains. It is being held to the point where no case causes more than one other case, and this, the health authorities claim, is a satisfactory state of affairs.

MORTALITY LOW. Dr. George W. Cole, chairman of the Advisory Committee of the City Board of Health, says that after making a study of vital statistics, he has found that the deaths here during the past two weeks have not been more than three times the normal number, while other cities afflicted with influenza have five or six times their normal number of deaths per day.

Dr. Charles J. McDevitt of the United States public health service, who came here from San Francisco to investigate influenza conditions, declares the epidemic seems well under control, and congratulates local health officials on the success which has crowned their efforts since the disease became prevalent.

Health Commissioner Powers expresses the belief that there are no more cases per day now than there were a week ago, but that doctors are paying more attention to the matter of reporting them, so that the maximum number of cases is coming in. It is believed that a goodly number of them are not influenza, but merely severe colds.

DON'T SCATTER. Dr. Powers says the disease could be brought under control much quicker if people would use common sense in the matter of going visiting. He says that neighbors who chat with one another, and who are recovered from the disease, should not go around visiting their neighbors who badly they felt, and in that way scatter the germs. He advises staying at home and requiring others to do the same.

There are 181 cases of influenza in the County Hospital and seventy-nine cases in the Yale-street isolation hospital. The death rate at both places has been low this week. The telephone company has been carrying out the health department's order regarding the fumigation of public places, and the disinfection of transmitters each day.

Powers says the order prohibiting students from visiting their teachers to take instruction applies to all lines of instruction, and that instruction can only be given where the teacher is able to visit the student.

Rev. M. McCormack, pastor of St. Anthony's Church at Alpine and Grand avenues, has been paying daily visits to the isolation hospital, and speaks a few words of cheer to each patient, regardless of his or her creed.

FOR NURSES. A registration bureau for practical nurses who are willing to work on influenza and pneumonia cases, was established yesterday at the Registrar's office.

(Continued on Sixth Page.)

## SCHOOL WEAPON FOR DEMOCRACY.

Dr. Shiels, Back, Says Work Must Be Amplified.

Americanization of Aliens to be Made a Feature.

Educator Organizes Whole of New York for War.

Dr. Albert Shiels, superintendent of the Los Angeles city schools, returned home last evening after three months' stay in New York City, where he was directly in charge of organizing that city into community councils of national defense.

"My work in the East has only intensified my conviction that the Americanizing policy of our schools must be continued," he said. "We shall continue and amplify war work. For the school's first function is to conserve the interests of the state, of which it is an instrument. Democracy is a constructive force, and by enforcing the principles of Americanism, we will attain a higher end."

"We shall continue rigorously the policy dealing with aliens so as to impress them that citizenship is a matter of service and not a personal advantage. The making of citizens is not a matter to be forced on persons, but a privilege, which one must work to gain. In a time when the American people are so much energized and so much effort and energy to conserve our own democracy it is important for the schools to remember that the potent factor in education is not the mass of information, but the use to which it is to be put. And so, if any boy or girl looks on the possession of knowledge as so many instruments for his own gain, we have missed our goal."

In New York City it was Dr. Shiels' duty to mobilize the people into a civilian army, as it were, to further the interests of the nation, on the community plan. In a city as large as New York the entire difficulty lay, he stated, in getting together the cosmopolitan population and to co-ordinate work. His three months' stay Dr. Shiels not only prepared a schedule of organization of the community councils, but established, as examples, several homogeneous communities.

His work consisted largely in dividing New York into districts of perhaps 15,000 persons each, and ranging, as far as possible, from the homogeneous standpoint. Each district was created a community council of national defense, and was to elect its chairman and governing board from the community.

Dr. Shiels was invited to send a representative as a delegate. These B. T. Crossier, Mrs. A. Berry, Frank Allen and J. L. Russell.

Parents Fear Girl Has Been Kidnaped.

DAUGHTER OF LONG BEACH SHIPBUILDING OFFICIAL MISSING TWO DAYS.

Missing from her home, without the slightest clue or known reason for her disappearance, Cynthia B. Taylor, 13 years old, daughter of Charles H. Taylor of Long Beach, an official of the Southwestern Shipbuilding Company, was being sought yesterday by the police throughout Southern California.

The girl dropped out of sight two days ago while walking toward her home and only a few blocks away, the police here were told. She had left her home at No. 848 West Third street, Long Beach, with a sum of money to be paid to the owner of the house as rent, and was on her way home when she disappeared, according to her parents. The police and the parents fear the girl may have been kidnaped.

Careful inquiry among all possible friends to whom she could have gone, and checking up in the neighborhood, have failed to bring any news as to the girl's whereabouts. She is described as two feet tall, 100 pounds, blue eyes, light hair. At the time of her disappearance she wore a white blouse and white pleated skirt, black shoes and stockings.

APARTMENT-HOUSE DAMAGED BY FIRE.

A fire of undetermined origin, starting under the stairway, yesterday caused \$1500 damage to an apartment-house and occupants at No. 1471 West Twenty-fourth street.

The building is owned by A. Benavente, and was occupied by Mrs. B. T. Crossier, Mrs. A. Berry, Frank Allen and J. L. Russell.

## LAST DAYS FIND 'EM BUSY.

Candidates Feverishly Active as Election Draws Near—Republican Warning.

Business men and others interested in state, safe government are working vigorously for the election of Dwight A. Hart, candidate for State Senator in the Twenty-sixth District. He has the unqualified endorsement of the Association for Betterment of Public Service and it is freely predicted he will win by a substantial majority, despite the fact that there are few candidates in the field.

Mr. Hart is a successful business man, being one of the owners of the great Resero Hotel. He has been in business in Los Angeles for thirty years. He started in a lowly position, but he applied himself earnestly to his work and has been steadily climbing to the top ever since. It is to him that the self-made man in Southern California has made a more remarkable record.

Mr. Hart is unhesitatingly opposed to recklessness in the expenditure of State money. He has given the promise that he will bend every effort to eliminate all unnecessary expenses. He has been a member of a number of State commissions that must go.

The Association for Betterment of Public Service also is making a vigorous campaign on behalf of George M. Easton, Republican candidate for the Assembly in the Sixty-fifth District. He is known as the "workingman's friend" and for the past twelve years has been actively connected with the Cudahy Packing Company. He stands for economy in government and is highly recommended for the job.

**Fruit Growers' Viewpoints.**

J. Albert Deis, public-spirited citizen and substantial property owner of Pomona, who is strongly urging the election of Gov. Stephens and is an enthusiastic booster for Montville Flowers, Republican candidate for Congress in the Ninth District, yesterday issued a timely warning of the danger that threatens the fruit and other industries of California through the free trade doctrine advocated by the President.

"Politically California belongs to the Republican column. Gov. Stephens should be elected on November 5, not only because he has served the State loyally and efficiently in Congress and as Governor, but because he stands for the industrial principles and protective policies which will be more necessary in the period of reorganization following this world war than ever before to save our fruit industry and other from disastrous competition. Particularly at this time are our industries and property threatened, and we should elect a strong Republican Governor and a Republican Legislature to safeguard them. Article three

of President Wilson's celebrated peace terms reads as follows: "The removal as far as possible all economic barriers and the establishment of an equality of trade conditions among all nations consenting to the peace, and associating themselves for its maintenance." This would pledge the United States to the Democratic doctrine of free trade under a league of nations from which there would be no escape.

"Since our nation will take a leading part in the formation of the proposed League of Free Nations and in determining the basis on which they will be associated, if the Republican party is in power our great California fruit industry, so vital to us, will be protected, and the welfare of our laboring people will be safeguarded, so that our country will not be deluged with goods, as will be the case if the policy of free trade instead of the policy of free trade instead of the policy of free trade is encouraged now."

**Bell is Due Today.**

Theodore A. Bell, independent candidate for Governor, left San Francisco last night and will reach Los Angeles this morning. He has reserved a suite of rooms at the Lankershim Hotel, Seventh and Broadway, and will hold open houses for his friends while he is in the city.

Mr. Bell telephoned the Bell-for-Governor Committee yesterday that he will be in the southern counties until Sunday. He will visit the principal cities, winding up at San Diego on Saturday.

"I am still pretty shaky," said Mr. Bell, who has just recovered from an attack of the "flu," "but I hope to fully recover with another night's rest."

It is planned to have Mr. Bell remain in Los Angeles today and tomorrow, and to go to other cities Friday and Saturday. He will return to San Francisco on Sunday.

**Woodley Reduces Cost.**

That the county tax budget has been reduced 10 per cent. during the administration of Supervisor Frank B. Woodley is the claim of those who are helping to re-elect the man they declare has made good. The exposure of the attempt on the part of his opponent to use the Red Cross to further his career as a politician has done much to change the political situation in the Supervisor race in the Third District.

When the entire county grand jury gave Supervisor Woodley a clean bill of health last week, it was made up of men who during this campaign went up in

## TO CELEBRATE ALBERT'S BIRTH.

Belgian King's Anniversary will be Observed Here if Ban is Lifted.

The birthday of King Albert of Belgium, November 14, will be observed in this city, if the ban is lifted forbidding the gathering of people, by a patriotic celebration on the Courthouse lawn.

It is proposed to fly the Allied flags over the entrance of the Courthouse and there will be songs and speeches, arranged by the Los Angeles County Employees' Patriotic Association.

**Thin Air.** The fact that the 1917 grand jury in its preliminary report on the board of directors of the public library, endorsing the proposed amendment which provides for the addition of one mill to the appropriation for library purposes. The Mayor said:

"This is a matter that should receive the endorsement of the city, as it pertains directly to the financial welfare of the public library, and is a needed and necessary amendment."

The public library is of tremendous value to the people of the city and its preservation and operation and support under year administration it has been placed upon a decidedly efficient basis."

**Indorsed for Judgment.**

Superior Judge Paul J. McCormick, candidate for re-election, has been indorsed by hundreds of leading citizens. Among them are the following:

Rev. J. Whitcomb Brougher, Rev. Charles Edward Leach, Rev. Baker P. Lee, J. F. Sartori, Victor Rosetti, J. M. Elliott, George L. Cochran, M. A. Graves, M. A. Hamburgh, W. E. Harvey, Louis M. Cole, J. C. Drake, Marco Hellman, Richard J. J. P. H. Olsen, W. J. Hunsaker, John G. Mott, J. B. Dockweiler, James P. Burns, Estelle Lawton Lindsey, Mrs. Clarence Van Graham, Mrs. Cora D. Lewis, Mrs. Grace E. Ashley, Mrs. Grace C. Simmons, Mrs. Elizabeth McKlaus, Mrs. Mary S. Gibson, Miss A. R. Gilbert, Robert C. Barton, Gilbert S. Wright.

**Confusion in Names.**

It is reported that many persons have been confused during the past few days by stories published in relation to the names taken by Superior Judge Sidney James on the question of automobile thefts. Many have taken it for granted that the jurist referred to is Superior Judge James C. Rives, who is a candidate for re-election. Judge Jim Rives has been in the probate department for twelve years and declares he would not know an automobile thief if he met him on the road to Downey.

**Political Notes.**

Superior Judge Valentine was indorsed yesterday by the Independent Order of Odd Fellows, Retail Shoe Dealers Association, and Apartment-house association.

The Apartment-house Association of Southern California yesterday indorsed Superior Judge John M. York and Joseph P. Chambers, candidate for Police Judge.

Attorney W. S. Baird, candidate for Justice of the Peace, has been indorsed by the Union League Club. Capt. John D. Fredericks, Republican leader, has issued a statement asking the people to elect him to the Court Justice Loring on the Supreme bench.

State Controller John S. Chambers has been indorsed by the following men, prominent in the life insurance world: J. Newton Russell, Jr., James L. Collins, L. A. Greenwood, E. P. Reese, Spencer S. Cole, Irving J. Muma, George Rathbun, Arthur S. Walther, Charles Lammert.

Prescott F. Cogswell, candidate for Supervisor in the First District, is making excellent progress in his campaign. He is especially strong among the walnut growers, being one of the pioneers in that industry.

Justice Howard R. Henshaw states that he is relying upon the activities of his friends to secure his re-election, as he has been too busy with court work to attend to campaigning. In the first twenty-five days of October, he has handled thirty-one arraignments, twenty-one preliminary hearings in felonies, 219 misdemeanors, heard thirty-five supplemental proceedings, and passed upon sixteen demurrers, besides qualifying many bail bonds.

**PROHIBITION NOT AN ISSUE IN THE NINTH.**

**ANTI-SALOON LEAGUE SAYS FLOWERS IS JUST AS 'DRY' AS RANDALL.**

That the question of prohibition is not an issue in the Ninth Congressional District was conclusively shown yesterday when the Anti-Saloon League made public the names of candidates for various offices whom it has indorsed. No reference was made to either Charles H. Randall or Montville Flowers, the Republican candidate. Dr. E. M. Gable, State superintendent of the Anti-Saloon League, said that both men are acceptable from the viewpoint of temperance and in such cases the league does not believe it good policy to make an endorsement. Dr. Gable refused to discuss the other phases of the campaign in the Ninth District.

This action or nonaction by the Anti-Saloon League no doubt will have considerable weight in the district. Many persons who have thought it their duty to vote for Randall because of his stand for prohibition, but hated to do so in view of his anti-war record and the insults he has heaped upon Great Britain and Belgium, now have a clear way pointed out for them.

A vote for Montville Flowers is a vote for a dry nation and a vote for a red-blooded American whose Republicanism has never been questioned, being the kind of man the Republican leaders desire to represent them in Congress.

## WILSON'S NOTE AIDS FLOWERS.

Ninth District will Accept the President's Challenge.

Republicans Showing Feeling at Long Beach.

South Pasadena Club Calls for Randall's Defeat.

BY THE WATCHMAN.

Accompanied by Edwin F. Hahn, stalwart Republican Pasadena, Montville Flowers, Republican candidate for Congress in the Ninth District, visited Long Beach yesterday, as well as in every other place where that great impetus had been given the campaign in the beach city.

While the Flowers campaign was setting along in excellent shape up to last Saturday, it is gratifying to note the increased enthusiasm for the Republican nominee since the Republicans of the district have had time carefully to study the challenge being put at the G.O.P. by President Wilson in his remarkable statement, urging the election of a Democratic Congress and the shelving of all Republican amendments, understanding that they "unquestionably have been pro-war."

The President's statement unquestionably has served as a boom-boost all over the district. In Long Beach, as well as in every other quarter, Republicans are reacting it. That it is working out most beneficially for Mr. Flowers can not be disputed.

One of the strongest local organizations formed in the interest of Mr. Flowers' candidacy is hard at work in South Pasadena. The officers are David A. Vall, president; William J. Hillman, treasurer; Ernest W. Sutton, William Jochum and W. P. Freeman were elected vice-presidents.

The South Pasadena Club yesterday issued the following statement to the voters of that thriving suburb:

"To the Voters of South Pasadena: The issue in the Ninth Congressional District is clearly drawn: It is a patriotic versus a pacifist. The man who for two terms has misrepresented the district in Congress has voted consistently against the vital issues connected with the war and in the face of his record in the country is now seeking to have his record confirmed by us. He should be unanimously rejected by the election of Mr. Montville Flowers, whose record as a 100 per cent. American citizen can be pointed to with pride. Mr. Flowers is sound on all the questions related to present conditions: sound on prosecuting the war; sound on the banishment of the liquor traffic; sound on the principle of protection to American industries and American labor; a man among men of whom we will not be ashamed. We urge you to do credit to this patriotic community by giving him your support on November 5."

**MORE DISTRICT COURTS ASKED FOR BY JURIST.**

**NECESSITY FOR CONSTITUTIONAL AMENDMENT IN STATE POINTED OUT.**

Justice Lucien Shaw of the State Supreme Court has made a special plea on behalf of the body for the adoption of the constitutional amendment separating the First and Second District courts of appeal into two divisions of three justices each. This amendment appears on the State ballot as proposition No. 3. In support of this amendment, Justice Shaw says:

"The great importance of a prompt administration of justice is well known to need discussion. To accomplish this there must be sufficient courts to do the necessary work."

"Under present conditions, an appeal filed today, if in the Los Angeles district, cannot be heard until the year 1921; if in the San Francisco district, not until the latter part of 1922, or later; if in the Sacramento district, not until the beginning of 1923. Previously filed cases will occupy all the time of the present courts until the above periods have elapsed."

"This is not the fault of the courts. The justices of the courts to which appeals are taken work conscientiously, but they are unable to keep pace with the increase in litigation, notwithstanding the best efforts of which they are capable."

"Few voters realize the rapid growth of this State or the great increase in recent years of the causes and volume of litigation. The three district courts of appeal now in existence were created in 1904. At that time the Supreme Court, although assisted by five commissioners, had fallen three years in arrears. The district courts were formed to remedy this condition. They proved adequate for a few years. By the year 1910, the three years' arrears had been cleared off, and the business was then practically up to date. The population of the State in 1900 was 1,485,023. In 1910 it was 2,377,545. The growth during the current decade has been rapid; today it is doubtless more than threefold. A great variety of novel laws enacted since 1909 have greatly increased the volume of the work of these courts. There has been no increase in the membership of the courts. The only remedy for the growing arrears is to increase the number of the courts. Increase in membership does not increase the efficiency in the same proportion."

"I have been a member of the Supreme Court for nearly sixteen years, and I am, of course, familiar with the work. I am certain that the district court plan is the most efficient system for supplementing the work of the Supreme Court in the disposition of appeals. This has been demonstrated by the experience of all the States which have used of assistance for that purpose. The center court remedy court to preserve the uniformity of the law in all parts of the State, with as many subordinate courts of appeal, such as our district courts, as may be necessary, is the ideal system."

"Three district courts having proved to be inadequate to meet the time has come when more should be added."

Miss Florida Jean Craig.

**CHILD IS 'SPELLBINDER.'**

Twelve-Year-Old Daughter of Judge Craig Ardent Campaigner for Honors.

Little Florida Jean Craig, 12 years old, daughter of Superior Court Judge Gavin W. Craig, is probably the youngest of her sex to be actively engaged in the present political campaign. As her popular daddy is not running this time, she just had to get behind someone and she chose Superior Judge Frederick W. Houser. Yesterday Miss Craig said:

"I think everyone should vote to re-elect Judge Houser because he is a good judge, and besides this, he was the first one to work for the mothers' pension law, and a man who would do that would have to be a good man."

There is no keener politician in the south than Judge Craig, but it would not be nice to say that little Miss Craig is a chip off the old block. Miss Craig's activities consist mainly in telephoning to her numerous friends, asking them to work with all their might for Judge Houser.

Deputy City Prosecutor William D. McConnell is a member of the Board of Trade and Business Men's Club of Hollywood. Members of these organizations are actively supporting Mr. McConnell's candidacy for police judge.

**SMILEAGE BOOKS MAY BE GOOD IN FRANCE.**

The official smileage report received in this city yesterday by Carl E. Rosenberg, director of sales, give the total sale of smileage tickets for soldiers and sailors throughout the country to July 27 as approximately \$1,000,000. Sales after July 27 are not reported.

Efforts are now being made to get smileage books and smileage tickets to the post exchanges and canteens established in connection with our soldiers in France.

**Fashion, Fit, Comfort**

A close study of the feminine form in all its phases and advance knowledge of fashions has enabled the designers of Redfern Corsets to produce for every type of figure a corset that is rarely equalled for beauty of line, fit and comfort.

Redfern Corsets are light, flexible, dainty in materials and finish. We have models to correctly mold the figure of the growing girl; to give roundness to the slab-like figure; to improve the short, dumpy figure.

Our trained corsetiers know exactly which style you require and will fit you perfectly. Give them a trial.

## Where Are My Children?

A little dust upon the street—  
A gentle, dew-like rain—  
A lubricant for rolling feet,  
Each one without a chain.

A gentle swerve to pass a truck—  
Slow toiling through the mud—  
A gentle skid—the jitney's luck,  
A dull and sickening thud.

An awful mace upon the street—  
A speeding ambulance—  
A simple service, short—and sweet?  
D'you think it's worth the chance?

In the argument against permitting the return of the jitneys to the business streets, mailed with your sample ballot, was the following statement:

"Jitneys at night are known to have been resorted to by men and women of evil intentions during the period when jitneys were freely operating under sanction of the law, endangering the moral security of the young through affording a relatively easy means for dissolute persons to ply their traffic."

Conclusive evidence of the truth of this statement is at hand. Printed, it would shock the moral sensibilities of most persons.

The simple restatement of the fact quoted above should prompt all parents to refuse to consent to the return of this device which offers an easy means to attain the ruin of the young.

The SAFE thing for parents to do is to vote NO on Proposition No. 12-A on the ballot.

**PARENTS:** Is it your daughter or your son over whom you are sometimes a bit anxious? If your girl, are you always where she is during the evening?

These verses hint at the danger of skidding and Have you ever thought of the danger of innocent young also skidding?

## Thirty Feet of Danger

The intestinal canal is an important part of every individual, important every inch of its every feet. The upper portion of it is intended for the digestion of food and absorption of its useful portions. But the lower part is concerned with the elimination of waste material.

It is, in other words, the great sewer of the body. The more food eaten, the greater the waste. If a person becomes clogged up, its contents stagnate and become more and more dangerous.

Constipation means more than failure to evacuate the bowels regularly and thoroughly. It means stagnation, increased fermentation, putrefaction and germ action. Increased amounts of irritating and poisonous substances are formed. Absorption of these into the blood follows. Self-poisoning results.

Danger, disorder, disease, or even death follow. Pills, purgative mineral waters, castor oil, salts, etc., do not cure constipation or prevent its consequences. They make it worse because they do not only irritate the bowels, but they "wear out" in effect and so must be taken in increasing doses, making constipation a habit.

But the Nujol Treatment for Constipation overcomes constipation by helping Nature re-establish easy, daily, thorough bowel evacuation as "regular as clockwork."

Nujol prevents stagnation and self-poisoning. Nujol forms no habit, except a natural, healthy habit. After Nujol has trained the bowels to act, it can be dispensed with.

## Nujol for constipation

## HAD BIG PART IN LOAN'S SUCCESS.

Industrial Organization Tells of Subscriptions.

Its Committees Raised Over Twenty Millions.

Summary by Divisions Given of the Canvass.

Of the total of about \$51,000,000 subscribed by Los Angeles city for the Fourth Liberty Loan, more than \$20,000,000 was raised through the industrial organization, according to a report made yesterday by James Sheldon Riley, director.

On the closing day of the campaign alone there were filed at Loan headquarters by industrial committees over \$1,500,000 of subscriptions, this amount being exclusive of all subscriptions which went direct to the banks. This is pointed to by the director as an index of the cumulative effects of the efforts of the organization.

The following summary by divisions of the results of the industrial organization's canvass, which, however, is not complete, was submitted by Director Riley:

COMMITTEES	Subscriptions
Advertising	11,850
Auto Dealers	200,000
Books, Stationery and Printing	300,100
Business General Merchandise	10,000
Building and Loan Associations	100,000
Chemical and Allied	20,000
County Offices	1,000,000
Electrical	10,000
Food and Grocery	10,000
General	10,000
Hotel and Restaurant	10,000
Insurance	10,000
Manufacturing	10,000
Medical	10,000
Real Estate	10,000
Retail	10,000
Service	10,000
Transportation	10,000
Wholesale	10,000

Will Take a Chance.

Conductor, Preparing for Bandits, Wounds Himself; Decides to Discard Revolver.

E. H. Boyd, a conductor for the Los Angeles Railway, prepared yesterday evening for possible highway robbery by placing a revolver in his pocket.

He was standing at Forty-eighth and Hoover streets when he noticed a man who appeared to be of the left hand. Boyd was not willing to take a chance on the bandits; he won't carry a gun in the future.

TWO CONTESTS FILED.

Renewing the effort to break the last will of the late Charles Wellington Rand, two contests were filed yesterday in the superior court.

ARE RECOVERING FROM INFLUENZA.

Judge J. Perry Wood of the Superior Court is recovering at his home in Pasadena from a severe attack of influenza.

Charles O. Goodwin, of No. 300 South Mariposa avenue, who has been ill for eight days with the malady, contracted while on a business trip to Brawley, is considerably better.

IS SAFE IN FRANCE.

Word that her son, Homer J. Plannette, one of the first Glendale men to join the colors, has arrived safely overseas was received yesterday by Mrs. Richardson Plannette, county probation officer.

MUST OBSERVE LIGHTLESS RULE.

Violators of Fuel Administration Order Here will be Fined.

Victor H. Rossetti, local Fuel Administrator, announced yesterday that many violations of the lightless order of the United States Fuel Administration have been reported to him.

FOR STEALING AUTO.

Stanley A. Merritt, who pleaded guilty to stealing an automobile which was the property of Mrs. Charles W. Stocker, was given an indeterminate sentence to San Quentin from one to ten years by Judge Willis yesterday.

TO TELL OF CRIME.

REMOVING FIVE PIECES OF BONE FROM BRAIN ENABLE MAN TO ACCUSE SON.

Removal of five pieces of bone which were added to the brain, Police Surgeon E. Gillman Goodrich last night postponed the death of William Maupin, a laborer, of No. 1438 East Thirty-seventh street, until the man could regain consciousness.

IN MISERY FOR YEARS.

Mrs. Courtney Tells How She Was Cured by Lydia E. Pinkham's Vegetable Compound.

Osaka, Iowa.—"For years I was simply in misery from a weakness and awful pains—a nothing seemed to do me any good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and got relief right away. I can certainly recommend this valuable medicine to other women who suffer, for it has done such good work for me and I know it will do the same for you."

(Garments; Third Floor)

Coulter's—Seventh Street at Olive—Coulter's

## Ex-President Taft Says---

Military and Naval America puts within the reach of anyone a comprehensive understanding of what is being done in the two departments of War and Navy. It would seem as if there ought to be in official form a volume which would do this, but there is none within my knowledge. Captain Kerrick's book supplies a long-felt want. In these days, when a conscientious citizen should be interested in the problem of a proper military and naval defense of the country, it is of primary importance that he should understand what there is. In order that he may know upon what foundation we have to build. He can learn this from the Compendium made by Captain Kerrick. I shall put the book in my library of reference for frequent consultation.

98c Places This Book in Your Home Act quickly—the number is limited.

Military and Naval America should be on the reading table of every American home. It contains information, suggestions, and instructions that will enable every man or woman, to render efficient service to the nation. In high-class binding, containing forty-six chapters, and two hundred illustrations. Retailly regularly at \$2.00 net.

This coupon worth money to you—use it today.

## GIGANTIC SUIT QUASHED.

Claim to Local Lands Worth Six Hundred Million Dollars is Denied.

An application to bring suit to quiet title to land worth about \$600,000,000 and which would have clouded title to property owned by leading corporations and hundreds of prominent men and women in this State, was denied by Probate Judge River yesterday. He held that the suit might not be brought, declaring that no one had been defrauded; that the claimants to the land had been guilty of laxness and are now estopped, the rights of the present owners of the land having been established by the limitation of time.

The story of this famous suit is that on June 20, 1847, Maximino Alcala, one of the Spanish grantees of California, made a will, leaving his vast estate to his children. The will was admitted to probate in 1851 by Augustin Olivera, probate judge. The appraisal of the estate at that time showed that it comprised all of the land now occupied by the Los Angeles Country Club and most of the valuable acreage between Los Angeles and Santa Monica. The estate, all told, comprised 4433 acres. The personal property did not enter into the suit.

The property was known as the Rancho San Jose de Buenos Ayres, and in 1847 was appraised at \$600. Now it is estimated to be worth about that many millions.

Benjamin F. Romero, administrator of the estate of Maximino Alcala, declared that there was no final distribution of the property according to law at the time the will was probated. He sought to bring suit against all those owning land in the Rancho de Buenos Ayres to quiet title in the interest of the so-called heirs.

If the suit had been allowed to be filed the defendants would have been the Los Angeles Trust and Savings Bank, the Pacific Electric Company, the Title Insurance and Trust Company, the Los Angeles Country

Club, the United Investment Company, the Booth Investment Company, the Los Angeles Country Club Realty Company, the West Coast Oil Company, the Santa Monica Land and Water Company, the Gueyver Memorial Home, the Rodas Land and Water Company, the Wolfkill Ranch Oil Company, the Standard Oil Company of California, the Union Oil Company, the Ventura Oil Company, the Associated Oil Company, the Doheny Pacific Petroleum Company, the National Oil Company, the International Holding Company, the Columbia Oil Producing Company, the State of California and hundreds of individual land owners.

## DRAFT MEN WARNED.

Class One Delinquents Have Only Day More to Respond for Physical Tests.

Draft registrants who have failed to respond to instructions to appear for physical examination have just one more chance to get "under the wire," said members of local boards yesterday. Board No. 17 will complete physical examinations today of registrants in class 1, and, according to Robert M. Shearer, a member of that board, the 200 men who have failed to appear for examination will then have an opportunity to explain.

It was estimated yesterday that more than 2000 men in the city have failed to appear for examination before the different groups of medical examiners.

The District Exemption Board passed on fifty claims for deferred classification yesterday. So far the board has passed about as many claims as were rejected, it is stated.

## AQUEDUCT FLOW BEST DROUGHT.

Los Angeles is in Enviably Position on this Coast.

Water Famine in Other Cities; We Escape it Entirely.

San Fernando Irrigation is a Benefit in Two Ways.

That Los Angeles is in a most fortunate situation regarding water for irrigation and domestic use, and that notwithstanding the very short snowfall in the High Sierras during the past year, the flow from Owens River is proving in excess of the rated delivery capacity of the Los Angeles aqueduct, is set forth in the November issue of the public service bulletin, which was issued yesterday.

After setting forth that nearly 100 square miles of territory in the San Fernando Valley have been irrigated for the growing of crops, the bulletin says: "The reservoirs at the outlet of the aqueduct are full; the great Halfway aqueduct storage basin, 200 miles north of the city, which was drawn down seventeen feet, is on the rise, and by February 1 will once more be at the high-water level, ready for the summer of 1919. "Moreover, carrying the flow of the Owens River into the San Fernando Valley is developing a decided increase in the output of the Los Angeles River, from which Los Angeles takes about \$5,000,000 gallons daily for her domestic needs. "A number of cities of the Pacific Coast this summer have been faced to face with a water famine, and, in some instances, it has been necessary for them to prohibit all sprinkling of lawns and foliage in order to conserve the available supply."

## LET'S NOT LOSE OUR GRIP.

The official figures on influenza, made public daily by the health office, indicate that Los Angeles is getting the situation in hand. There is every reason to expect a further improvement, according to both city and county health commissioners. The latter is making arrangements for the reopening of the county schools a week from Wednesday.

An important phase of the situation is the proper maintenance of business, the life-blood of the community. Los Angeles cannot hibernate in a cave of fear without causing grave hardships to its army of wage-earners. There is absolutely no reason why every person whose livelihood does not depend upon the gathering of large crowds should not go about his daily business exactly as usual. The simple precautions against infection advised by the health office in no way interfere with this—in fact, Health Commissioner Powers strongly urges that mistaken fear be not allowed to do so. The large downtown business and mercantile establishments have taken the most rigid precautions to safeguard the health of patrons and employees and may be visited without the smallest misgivings. To withdraw into our several shells and put off ordinary business transactions "until the 'flu is over" is a capital mistake. It works a hardship on yourself and on the community, dependent upon the aggregate of such transactions to keep going.

Let us not relax our vigilance in the observance of the simple and efficacious health measures prescribed by recognized experts, but at the same time let us maintain the cheerful confidence that is in itself the best guard against ill health. Compared with other cities of the same size in the East, the epidemic here is hardly to be dignified by such a name.

KEEP COOL AND BE CAREFUL.

ply for strictly domestic needs. "There was a very scant snowfall in the Sierras last year, and throughout the State the rainfall was much below normal. Early last spring, even with the large resources of the aqueduct, water bureau officials watched the situation closely, and with considerable anxiety, as it was the first occasion under which opportunity was given to see the aqueduct source under conditions of adverse supply.

"The stream gaugings of the Owens River and tributary streams have been checked, however, and it is found that even in this dry year the flow amounted to 431 second-feet, or something in excess of the rated delivery capacity of the aqueduct. "Not only has Los Angeles had

## EXPERT SAYS FLU'S BEATEN.

(Continued from First Page.)

ceiving Hospital by Charles Whitehead, chief nurse.

The bureau will be a medium of communication between women who feel willing and capable to do their share in nursing and helping persons who are unable to wait on themselves and the numerous citizens who daily call the Receiving Hospital and ask to be placed in touch with practical nurses.

Chief Nurse Whitehead explained there are many women who are perfectly capable of performing the task, and that scores of persons are willing to pay for the service, are unable to get in touch with the proper persons. All applications can be sent in by telephone.

Chief of Police Butler reported at yesterday's session of the Police Commission that four deaths of influenza, according to the information from his home yesterday. He is under the care of a physician, who says that in the course of a few days he will be up and about. The wife of the jurist said yesterday the judge expected to be in his chambers today, but a temporary injunction may be served on that determination.

Assistant Postmaster Foster of the local office declares that about ninety clerks of the Los Angeles post office are off duty on account of the Spanish influenza, and that a score had returned to work after a wrestle with the epidemic.

HALLOWEEN IS OFF. The Halloween dance and concert to have been given by the Norman-aville Auxiliary, Red Cross, tomorrow at the California Temple of Arts, has been indefinitely postponed. Halloween parties in general, as well as other social functions attracting large numbers of people are discouraged by the health authorities.

United States District Judge Bledsoe is suffering from a mild attack of influenza, according to the information from his home yesterday. He is under the care of a physician, who says that in the course of a few days he will be up and about. The wife of the jurist said yesterday the judge expected to be in his chambers today, but a temporary injunction may be served on that determination.

Assistant Postmaster Foster of the local office declares that about ninety clerks of the Los Angeles post office are off duty on account of the Spanish influenza, and that a score had returned to work after a wrestle with the epidemic.

## ARTILLERIST HERE.

Assignment to Fort MacArthur in Thought to Precede Usual Activity.

Col. A. G. Clarke, formerly of Fort Moultrie, N. C., an artilleryist well known along the Atlantic seaboard, arrived yesterday at Fort MacArthur, with orders simply to report. He is, no orders have come from the War Department regarding his assignment to a command.

Col. Clarke came to this post from Washington, D. C., and it was rumored yesterday an army division that his arrival presages unusual activity at the heavy artillery post of Los Angeles Harbor. Col. James M. Williams is in command of the defenses here. Lieut. Col. Colton also recently arrived to take command of the Second Army Artillery Park Regiment.

## HARDEST KIND OF LUCK FOR PIONEERS.

All of the city high schools have issued alibies regarding their football teams with the possible exception of Los Angeles High School. At the start of the football season Johnny Boyle, the big six-foot 16-year-old pigskin performer, was captain of the Pioneer aggregation, having been elected the previous term. He was slated on the all-city team and was counted on to be the mainstay of the team's success. On account of delinquency in his studies Boyle was declared ineligible, thereupon leaving school. In his stead, Clevidence was elected and the team started practice, continuing until the "flu" hit the team. Several of the members were knocked out by the malady and just three days ago Capt. Burton Clevidence succumbed to pneumonia after a siege with the influenza.

A new captain will be elected upon convening of school. It is yet to be seen whether the third captain in one season will bring the Pioneer team any good luck or not.

## EARLY WAR HERO IS HERE ON A VISIT.

MET WOMAN HE MARRIED IN A HOSPITAL—LECTURES FOR FUEL ADMINISTRATION.

Private Harold R. Peat, one of the early heroes of the great war, arrived in Los Angeles last night, with his wife, whom he first met in an English hospital, while he was recovering from a gas attack, and their 5-month-old daughter, Miss Louise Peat, known to the family, and on the Hotel Alexandria register, where the Peats are staying, as "Pat." They had a thrilling experience yesterday in the mountains, one of the wheels of their automobile coming off and the machine and party narrowly escaping a long fall.

Private Peat was a member of the First Canadian contingent, stuck through the battle of Ypres, in which 10,000 Canadians were killed, was gassed and then shot in the right arm. While lying in a hospital at Woolwich, Eng., in 1915, he answered an ad of Miss Louise Watson, an Irish girl, who was inquiring for news of her brother, whom Peat had met at the front. Miss Watson, who was working in a munitions factory, called at the hospital. They kept in touch by correspondence and last year were married in Canada. Peat has made several trips to France, returning from the front only four months ago. He has been lecturing under the auspices of the United States Fuel Administration.

TAKE DOWN LOAN POSTERS. All merchants and proprietors of places of business where large posters were placed for the Fourth Liberty Loan campaign, were requested yesterday by the Loan Committee to take them down. Campaign Chairman Robert H. Moulton desires to clean decks for future campaigns. This does not apply to the subscribers window, honor posters nor the honor roll cards, but only to the large colored posters.

Don't Neglect Your Family. When you fall to provide your family with a bottle of Chamberlain's Colic and Diarrhoea Remedy at this season of the year, you are neglecting them, as bowel complaint is sure to be prevalent, and it is too dangerous a malady to be tried with. This is especially true if there are children in the family. A dose or two of this remedy will place the trouble within control and perhaps save a life, or at least a doctor's bill.—Advertisement.

To Prevent Influenza. Get the Grip and Influenza—LAXATIVE. FROM QUININE Tablets remove the mucus in the throat. "Home" medicine. R. W. GROVE'S signature on box. 30c.

Increased Output Assures Ample "BULL" DURHAM Tobacco for Soldiers and Sailors and Limited Quantity for Civilians at Home

—With the little muslin sack of "BULL" DURHAM in the pockets of every one of our fighting men on land and sea—

—With good old "Bull" in the regular Army "rations"—

—And with the future demands of the War Department abundantly cared for, "BULL" DURHAM Tobacco is offered again to the men at home who "roll their own".

All of which has been accomplished since April, when the Government asked for our entire output of "BULL" DURHAM for war use, which was freely and gladly given. It has been accomplished by greatly increasing our manufacturing facilities and through the personal enthusiasm and individual efforts of every one of our thousands of employees.

So that now a limited amount of "Bull" is available for civilians at home—those men who have "rolled their own" in the past and who have, in the last few months, so cheerfully relinquished their supply in order that "our fighting boys" might be fully provided for.

Once more, therefore, you will, we know, with your own hands, roll a cigarette for yourself—a cigarette machines can't imitate—the mildest, the most fragrant, the most economical cigarette in the world—"BULL" DURHAM.
